

Scientific Name	Common Name	Large tree (Often over 15m at maturity)	Notes
Acer campestre	Field maple		Particularly within hedges but not exclusively so
Acer pseudoplatanus	Sycamore	Yes	Maybe worth considering but away from ancient woodland or protected sites and also semi-improved/unimproved grassland and where horses present nearby.
Alnus glutinosa	Alder	Yes	Wet and damp sites plus next to watercourses/ditches where appropriate.
Betula pendula	Silver birch	Yes	Particularly where already known to occur and appropriate.
Betula pubescens	Downy birch	Yes	Damper sites
Carpinus betulus	Hornbeam	Yes	Occasional use where appropriate to location and its history.
Castanea sativa	Sweet chestnut	Yes	Particularly where already known to occur and appropriate.
Corylus avellana	Hazel		Good choice in many locations
Crataegus monogyna	Hawthorn		Particularly within hedges but not exclusively so
Fagus sylvatica	Beech	Yes	Particularly where already known to occur and appropriate.
Ilex aquifolium	Holly		Good choice where already known to occur
Juglans regia	Walnut (English)	Yes	Probably as specimen trees only - looks similar to ash
Ligustrum vulgare	Privet		Mainly within hedgerows
Malus domestica	Apple (cultivated)		Occasional use where appropriate to location and its history. Known cultivars grown on M25 rootstock
Malus sylvestris	Crab apple		Occasional use where appropriate to location and its history.
Pinus sylvestris	Scots Pine	Yes	Occasional use where appropriate to location
Populus nigra	Black poplar	Yes	Occasional use in wetter sites/valley bottoms and vales usually where previously known
Populus tremula	Aspen	Yes	Particularly where already known to occur and appropriate.
Prunus avium	Wild cherry	Yes	Particularly where already known to occur and appropriate.
Prunus domestica	Plum (cultivated)		e.g. such as Pershore & Blaisdon cultivars or smaller ssp. insititia (Damsons)
Prunus padus	Bird cherry		Occasional use where appropriate to location and its history.
Prunus spinosa	Blackthorn		Particularly within hedges but not exclusively so
Pyrus communis	Pear (cultivated)	Yes	Esp. Perry Pear cultivated hybrids
Quercus petraea	Sessile oak	Yes	Particularly where already known to occur and appropriate.
Quercus robur	Pedunculate oak	Yes	Good choice in many locations
Salix caprea	Goat (Pussy) willow		Damper sites
Salix cinerea	Common willow		Wet and damp sites. Also subspecies of Grey and Rusty Willow may be appropriate in a few locations if already known.
Sambucus nigra	Elder		Particularly within hedges but not exclusively so
Sorbus aria	Whitebeam		Occasional use where appropriate to location and its history
Sorbus aucuparia	Rowan		Particularly where already known to occur and appropriate.
Sorbus torminalis	Wild service tree		Occasional use where appropriate to location and its history.
Taxus baccata	Yew	Yes	Particularly where already known to occur and appropriate
Tilia cordata	Small leaved Lime	Yes	Particularly where already known to occur and appropriate
Tilia platyphyllos	Large leaved lime	Yes	Occasional use where appropriate to location and its history
Ulmus procera/glabra	Wych & English Elm	Yes	Particularly where already known to occur and appropriate
